BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

Of the funds appropriated in this section, Three Million

Time-Limited:	Full Time	78

Each Marine Conservation Officer and Supervisor shall be furnished an allowance for uniforms not to exceed Six Hundred Dollars (\$600.00) per annum.

With the funds herein appropriated, it shall be the agency's responsibility to make certain that funds required to be appropriated for "Personal Services" for Fiscal Year 2018 do not exceed Fiscal Year 2017 funds appropriated for that purpose, unless programs or positions are added to the agency's Fiscal Year 2017 budget by the Mississippi Legislature. Based on data provided by the Legislative Budget Office, the State Personnel Board shall determine and publish the projected annual cost to fully fund all appropriated positions in compliance with the provisions of this act. It shall be the responsibility of the agency head to ensure that no single personnel action increases this projected annual cost and/or the Fiscal Year 2017 appropriations for "Personal Services" when annualized, with the exception of escalated funds and the award of benchmarks. If, at the time the agency takes any action to change "Personal

Services," the State Personnel Board determines that the agency has taken an action which would cause the agency to exceed this projected annual cost or the Fiscal Year 2017 "Personal Services" appropriated level, when annualized, then only those actions which reduce the projected annual cost and/or the appropriation requirement will be processed by the State Personnel Board until such time as the requirements of this provision are met.

Any transfers or escalations shall be made in accordance with the terms, conditions and procedures established by law or allowable under the terms set forth within this act. The State Personnel Board shall not escalate positions without written approval from the Department of Finance and Administration. The Department of Finance and Administration shall not provide written approval to escalate any funds for salaries and/or positions without proof of availability of new or additional funds above the appropriated level.

No general funds authorized to be expended herein shall be used to replace federal funds and/or other special funds which are being used for salaries authorized under the provisions of this act and which are withdrawn and no longer available.

None of the funds herein appropriated shall be used in violation of Internal Revenue Service's Publication 15-A relating to the reporting of income paid to contract employees, as interpreted by the Office of the State Auditor.

SECTION 4. It is the intention of the Legislature that the Department of Marine Resources shall maintain complete accounting and personnel records related to the expenditure of all funds appropriated under this act and that such records shall be in the same format and level of detail as maintained for Fiscal Year 2016. It is further the intention of the Legislature that the agency's budget request for Fiscal Year 2018 shall be submitted to the Joint Legislative Budget Committee in a format and level of detail comparable to the format and level of detail provided during the Fiscal Year 2017 budget request process.

Each political subdivision receiving funds authorized in this section shall be held responsible for complying with Section 29-15-9, Mississippi Code of 1972, and shall be subject to an audit by the State Auditor and shall submit detailed reports beginning June 30, and every six (6) months thereafter for the duration of the project to the Department of Marine Resources on how funds authorized in this section were expended.

It is the intention of the Legislature that any political subdivision seeking to qualify for tidelands funds for the subsequent fiscal year shall submit a proposal to the Department of Marine Resources no later than July 1, 2016. All proposals submitted will be reviewed and evaluated by the Department of Marine Resources in accordance to department plans and procedures. Multiphased projects, multiyear projects, proposed projects with high dollar value and projects that have a record of stacking funds shall be considered as low priority projects when evaluated.

It is the intention of the Legislature that if the amount of the tidelands funds appropriated in this act exceed the actual amount of tidelands funds available, the available funds shall be

allocated on a pro rata basis between projects listed in this section.

SECTION 6. It is the intention of the Legislature that the commission shall place any special trust funds appropriated to the department in a special trust fund and the interest earned on the principal shall be credited to the special trust fund. Monies in the fund at the end of the fiscal year shall be retained in the special trust fund for use in the next succeeding fiscal year. The department may use the interest earned on the fund to pay reasonable costs for administering the fund and related projects.

SECTION 7. It is the intention of the Legislature that the Department of Marine Resources has the authorization to move tidelands funds between approved projects upon request from entity and proper completion of Form TTF-6 documentation.

It is the intention of the Legislature that whenever two (2) or more bids are received by this agency for the purchase of commodities or equipment, and whenever all things stated in such received bids are equal with respect to price, quality and service, the Mississippi Industries for the Blind shall be given preference. A similar preference shall be given to the Mississippi Industries for the Blind whenever purchases are made without competitive bids.

SECTION 11. Of the funds appropriated under the provisions of Section 2, the amount of Three Million Dollars (\$3,000,000.00) shall be derived out of any money in the State Treasury to the credit of the Budget Contingency Fund, as created in Section 27-103-301, Mississippi Code of 1972, and allocated in a manner as determined by the Treasurer's Office, and shall be made available for the Coastal Map Revision Project.

The Coastal Map Revision Project is to revise the floodplain maps that encompass Hancock County, Harrison County and Jackson County to reduce the number of properties that are located in special flood hazard areas with Base Flood Elevations and V-Zone

The Southern Mississippi Planning and Development District shall use the money appropriated by this act to contract with an engineering firm to perform the modeling and engineering services required to complete the Coastal Map Revision Project.
